

Shadow Bear Tarot Code of Ethics

As an ethical, professional Tarot reader, I will create a safe and judgement-free place with all of my readings. My purpose as a Tarot Reader is to bring guidance and insight into your queries, and help you tap into your own intuition. I aim to create readings that give the querent agency and direction. I will always be honest about the messages from the cards. If the message from a reading is viewed as unfavorable, I will collaborate with the querent to explore alternative directions that will generate a more favorable outcome so the querent can leave the reading with a sense of direction and hope.

My readings are intended to empower, aid, and inspire clients. While readings can give insight into potential outcomes, I believe that we all have free-will, and so fate-based or predictive questions may be re-phrased in order to give more agency to a client. If you are looking for a strictly predictive reading, I'd recommend searching for a reader who specializes in those types of readings.

I will maintain strict confidentiality with all readings and clients. If I wish to use examples from a reading for lesson purposes, I will do so only with the permission of the client, and I will never share names.

My readings are for 18+, with the exception that I will read for minors if there is verbal or written permission from a parent or guardian.

I will not read for third parties without permission from them. If you have a question about a person's actions or intentions, I will work with you to get a better sense of the energies from the person, and the best steps you can take to unlock them.

I will not do readings on medical questions, legal questions, questions about death, predictive results questions (political results, lottery results, race results, trial results, etc.), hate-based questions (i.e. anti-LGTBQ+ queries), or questions that suggest harm to self or others. I have the right to refuse any reading that does not follow my code of ethics either before or during, with full refunds.
